Airmen Decorate Barracks With Rugs, Shades, Curtains

ENID, Okla.—It's just a regulation GI barracks on the outside but with curtains on the windows and rugs on the floor.

With permission of the commandant, the airmen closed a wholesale deal with a lumber company, borrowed \$200, and partitioned the floor into 11 two-man rooms with knotty-pine walls and chests.

The Venetian blinds, curtains, and other finer points of interior decoration came out of each individual's pocket but one satisfied resident said his new quarters "are nicer than my brother's in college."

Spanking No Worse Than 'Yakking', Expert Says

LONG BEACH, Calif.—At last one expert does not disapprove of spanking.

Dr. Frank Tallman in a report to the Southern California Society for Mental Hygiene, reports:

"The youngster understands the righteous wrath aroused in the parent because he's felt the same way himself. But despite this understanding no youngster really appreciates a spanking."

Spanking leaves a child "sore in skin and soul" and hostile toward the parent. "Cold, needless spanking" can breed resentment and harm, he said, advocating a firm but not too harsh attitude.

TOO COOL FOR CAMPING

MEANEST WOMAN

The meanest woman I have heard of for a long time was a New Yorker who was spending the winter in Miami. When a group of Halloween youngsters called at her door, she told them she would show them how they celebrated Halloween in New York. She heated a lot of coins and threw them into the yard. The children suffered severe burns. One girl had the imprint of a silver dollar burned in to her palm. Who can beat that for sport?

# "Progressive Farmers Plant Blue Lupine Continuously!"

Mr. C. B. Johnson, First Farmer In Geneva County To Plant  
BLUE LUPINE Started With One Bag!

C. B. Johnson, a Geneva County farmer (left) and J. K. Howard, Soil Conserva-  
tionist in a 60 acre field of Blue Lupine on the Johnson Farm. Mr. Johnson was  
the first farmer in Geneva County to plant Blue Lupine as a winter cover crop. Mr.  
Johnson and hundreds of other Geneva County farmers have learned through ex-  
perience the value and need of planting this valuable cover crop on all crop land  
possible.

## Why Plant Blue Lupine?

- 1-Blue Lupine is the best cover crop for Geneva County  
as proven by Experiment Stations results and farmer  
experience.
- 2-Blue Lupine seed locally grown are available when you  
are ready to plant.
- 3-Blue Lupine reduces the requirement of commercial  
nitrogen on your farm. The 1951 outlook for commercial  
nitrogen is not good.
- 4-Blue Lupine can be economically planted due to PMA  
assistance on planting seed.
- 5-Blue Lupine is easier turned under in the spring as  
green manure than other cover crops.
- 6-Blue Lupine produces higher yields of cotton, peanuts,  
and corn than the average farmer's application of com-  
mercial nitrogen.
- 7-Blue Lupine covers your soil early and provides much  
needed protection against water and wind erosion dur-  
ing the winter months.
- 8-Blue Lupine adds liberal amounts of much needed or-  
ganic matter to our soils.

## Where To Plant Blue Lupine

- THE NUMBER ONE PLACE—**  
to plant blue lupine is on soil following harvested peanuts.
- THE NUMBER TWO PLACE—**  
for planting blue lupine is on cotton land. It is the general practice  
to plant cotton continuously on the same land in Geneva County.  
This is a good practice provided lupine is planted each fall. In pro-  
viding nitrogen for cotton, a good crop of lupine is more valuable  
than 300 lbs. of commercial nitrogen.

## Tigers and Hal Farris Shine in 27-6 Conquest Of Greenville Friday

The Tigers averaged last years drubbing at the hands of Greenville Friday night when they out-fought, out-gained and out-scored Greenville 27-6 on the Elba field. In 1949 Elba suffered a humiliating 53-12 rout. With Hal Farris leading the way, the locals turned in their best game of the season. Starting in the first quarter, the Bengals took command of the game to lead throughout. After losing the ball on downs on the Greenville 5, Elbas' forward wall broke through and blocked an attempted punt. Hal Farris went into the end zone with it. Conner went over for the extra point.

Another punt, this one 30 yards, by Farris in the second quarter along with the Wise to Conner pass put the locals ahead, 14-0. A Greenville punt nestled their six points to make the score 14-6 at the half.

In the third stanza Wise tossed a 21-yard pass to Jimmy Scott for a counter. Farris ended the scoring in the final period with a touchdown and extra point.

If Hal Farris does as well in the remaining two grid contests, he will close his prep football career in the best possible way. Against Geneva the husky full-back accounted for three touchdowns and an extra point, carrying the ball 12 times, he piled up 223 yards. In back of the line on the defense, he made his share of the tackles that kept Greenville ball toters from getting very far into the secondary defense of Elba.

Other standouts for Elba were Nalls, J. Farris, Devane, Wise and Enzer.

Elba takes her final road trip of the football season Friday to face a team with a fair record this season. The locals will be at full strength for their next-to-the-last contest of the gridiron year.

Geneva has been routed twice this season. Florida trounced them 34-6 while Dothan romped over them, 47-13. On the won side of the ledger, Geneva rolled over Newton, 31-6, slipped past Enterprise, 13-7, defeated Samson, 7-0, and downed Ozark, 28-12.
